

Assistant Director for Communications

Chief of Logistics

25X1A

Inspection of Communications Material at  
the Depot

25X1A

REFERENCE: Your memorandum dated 28 July 1953,  
Subject as above

1. Requirements for Communications material have not yet developed to the extent that this Office can determine the quantity of material that will be stocked in the Depot or when such material will be stocked there. As soon as this determination is made, your Office will be informed.

25X1A

2. Facilities Staff, Supply Division, is the individual who should be contacted by your representatives concerning the establishment of test and evaluation facilities at this Depot.

25X1A
